Most weapons can be crafted using a combination of two items from the metal and wood category. For example, a pickaxe is constructed from a stone pickaxe and a piece of metal, and is more powerful than both types of weapons combined. It has an increased durability when compared to stone or metal alone but it also takes longer to craft as well as requiring more resources than either a stone or metal item would by themselves.",

All of these cool things in Minecraft could not be possible without mods. Mods have changed the way in which people play Minecraft and they have helped this game become better than ever!",

How do I Join a Minecraft Server? – There are multiple ways that you can join a Minecraft server depending on what type of mod support it offers. The first way that you can join a server is by manually entering the IP address or host name into your internet browser. When this page loads, click on one of the available selections and then select to join it. If you are using a Bukkit or Tekkit server, then you will need to download their respective client before connecting. The instructions for downloading and connecting to these servers are usually included in the website's instructions on how to connect. The other way that you can join a Minecraft server is by joining through another Minecraft user who is already online. If someone invites you then all that you have to do is click on their name and it will take you directly there.",

On July 14th 2021, developers Facepunch Studios were forced to remove the games "furry" character models after the studio were sent a legal letter from the Australian High Court. Although this issue was later resolved in favor of Facepunch Studios, it highlighted the ongoing issues over intellectual property rights regarding cosmetic character items for online video games. The game has received mixed reviews. Rami Ismail, co-founder of indie game development blog Vlambeer, describes the gameplay of "Rust" as similar to a DayZ-style open world survival game, but says it is "a hundred times better in many ways". He stated that the biggest improvement is in how "Rust" handles players' mood. In DayZ and other games like it, he said that players are constantly forced to make decisions about how they want to spend their time: by killing zombies or by doing a little bit of both. In "Rust", players have a greater degree of control over their consumption of resources; Ismail said that the game's resource system allows players to scavenge for wood, metal and other supplies, allowing them to build items and take care of their daily needs without having to worry about starvation. This, he said, makes camping as a survival mechanic far less useful than it is in DayZ or "Minecraft".
